Short Chip Shot Drill

Setup

Use 15 balls from your bucket if needed—even off a mat. For 5–10 yard carry chips, place the ball center or slightly back, lean forward, and remove wrist action.

Swing Cue

Rock the club with your shoulders like a long putt. No scoop, no flip. Let the club move through with quiet hands. For slightly longer chips (15–20 yards), allow soft wrist hinge and flow—but no slapping at impact.

What to Notice

This drill builds consistency, feel, and pressure-proof technique. A short game built on control and repetition holds up on the course—even off mats.
